BMX COMPETITION BICYCLE

REGULAR MONGOOSE
AND
LONG MONGOOSE

B. M. X. Products proudly introduces the MONGOOSE. Built with the same precision workmanship and highest quality materials that you would expect from the makers of MOTOMAG.

- Race proven geometry and precision balance.
- Both model frames are nickel plated, aircraft quality heliarc welded, plus double head gussets for maximum reliability.
- Ashtabula stem, heavy duty reinforced fork, and 6½" heat treated cranks.
- Bendix 70 coaster brake.
- Racing saddle with metal base.
- Black heavy duty high rise handlebars with cross bar.
- MOTOMAG wheels - the most rigid of all bicycle wheels for transferring power to the ground.
- Cheng Shin MX knobby tires.
- Heavy duty rat trap, all steel pedals.
- Hunt - Wilde grips.
- Conveniently packaged in kit form, with easy step - by - step instructions enclosed.

BMX COMPETITION FRAMES

2 RACING MODELS

REGULAR MONGOOSE
AND
LONG MONGOOSE

B.M.X. Products proudly introduces the MONGOOSE BMX Competition Frame. Built with the same precision workmanship and highest quality materials that you would expect from the makers of MOTOMAG.™

B.M.X. sets the pace again. This time giving the dealer two frame sizes to work with. There's the Regular MONGOOSE, which should accommodate most of your customers, plus a Long MONGOOSE for the hard to fit long racer.

- Race proven geometry and precision balanced.
- Aircraft quality heliarc welded, plus double head gussets for maximum reliability.
- Both models available in either nickel plate finish or three "new" colors of red, yellow, and orange.
- Accepts all standard hardware – cups, bearings, forks and cranks.
- Included with frame is heavy wall, plated seat post.
- Ground clearance to accept long cranks.
- Brake arm bracket is integral with frame for convenience.
- Weight: Regular MONGOOSE 6 lbs.
Long MONGOOSE 6 lbs. 6 oz.

MOTOMAGTM

THE WINNERS
CHOICE

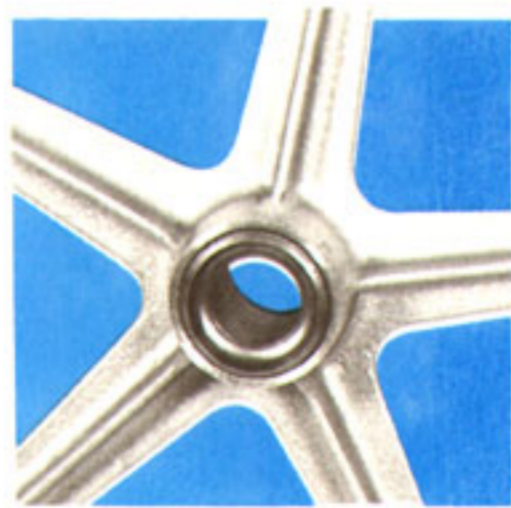

United States Patent
No. D-236609

BMX COMPETITION WHEELS

FRONT

The front hub is designed to accept an oversize axle (supplied with the wheel). Most front axles are 5/16"; the Motomag[™] axle is 3/8" and considerably stronger.

REAR

The inner diameter of the steel sleeve in the rear hub is the same as that of the popular Bendix[®] hub. Splines in the sleeve keep it from moving.

THE MOST RIGID OF ALL BICYCLE WHEELS
FOR TRANSFERRING POWER TO THE GROUND

This is the Bicycle Motocross "mag"-type wheel that everyone is talking about and asking for.

CHECK THESE FEATURES:

- Rigid construction for total control in jumps and berms.
- Race proven—the winners choice across the country.
- One-piece construction—no welds—no rivets—no spoke maintenance.
- Rear wheel accomodates Bendix[®] 70 coaster brake.
- Precision machined for perfect balance and reduced run out.
- Easy tire mounting.
